TONOPAH RAILROAD A GO. General Manager Oddie of Tonopah

Company Confirms News. MPAIGN TO BE ARRANGED

Yesterday morning the Miner re-elved a letter from a correspondent in Philadelphia who is in close touch with "The fellowing information may be of ase to you, though I am in no way authorized to be quoted: I have just G. & Curry....

and a talk with the prominent members of the Tonopah company. The

lay has been due to the fact that they have been unable to secure the proper man to build the road; that is, superintend the construction. They have finally secured the services of a man connected with the Baltimore & Ohio who will undertake the construction of the road. They have already purchased in the east large quantities of supplies and equipment. So the railroad is an assured fact. The reduction works will be built near Stewart's Wells. The company is very hopeful."

This statement was submitted to General Manager Oddie of the Tonopah eneral Manager Oddie of the Tonopah ampany and he confirmed it and oke freely and enthusiastically on the before. Paul Ighart, formerly with the Baltimore & Ohio and the Norfolk Western rallroads, has been employed as constructing engineer and over the second of the s be made on Tuesday next.

Ore receipts at the Taylor & Brunton ampler yesterday included six cars from Bugham and two from Tintic.

Two cars of ore from Tintic, two from Tintic and Pairbanks, surveyor for the Tonopah company, left last night to meet him and conduct him over the proposed route. Mr. Oddie states that the company has practically arranged with the pany has practically arranged with the Southern Pacific for rais, and is now making contracts for ties. GRAIN AND PROVISIONS.

Chicago, Oct. 14.—There was a general disposition manifested among wheat traders to sell out long lines and with an absence of any news that might be construed of a bullish character, the market developed a weak undertone. Opening prices were easier on rather indifferent cables, favorable whether for the movement and larger receipts, December being ½ to ½c lower at 79½ to 79½c. Trading was dull the early part of the session and prices fluctuated within a narrow range. The tendency was toward a lower level, however, influenced by the smaller deonly ten names. Total operating expenses during September amounted to less than \$1,500.

Two cars of ore from the Lynch-O'Meara company's Nevada-Alpine property will be on the market today. It is expected to run about 200 ownees silver and 40 per cent lead per ton.
